Include Keywords Strategically

Add keywords in the name, description, and wherever else you deem necessary. But don't stuff the keywords unnecessarily, as it might look too spammy, and Google might suspend the GMB profile as well.

Update The Location Information

If you have a physical office, update the accurate address so clients can find you easily. But if you have a remote office, use Google Maps to hide your office address and set the office location where the tour begins. Give clear directions to prevent confusion and ensure a smooth trip for customers.

Add High-Resolution Visuals

To attract customers, upload 30-second videos showing your services and what they can expect from them. Also, upload high-resolution photos of your business, travel destinations, etc.

Boost Engagement With Q&A Feature

Utilize the Q&A section to give answers to common questions customers usually have, like visa, insurance, deals, etc., to build trust and transparency.

Add A Book Now Link

Add a "Book Now" link to your GMB profile to give customers direct access to book their travel, saving time and effort.

Write Engaging Descriptions

In your business description, include keywords and what makes you stand out authentically. You can use up to 750 characters, so make sure to make the description attractive yet crisp.
